

Help protect employees from costly hospital expenses.

Complement your health plan with extra protection.

While a health plan is essential, it may only go so far. Adding a UnitedHealthcare Hospital Indemnity Protection Plan gives you and your employees more financial security in the case of a hospital stay.

Facts and figures to consider:

Emergencies are common.

Over 35 million Americans have needed hospital care.¹

Hospital stays are costly.

The average cost, including ambulance transportation, is about \$11,000.²

Millions of people are in high deductible health plans (HDHPs).

It makes them more susceptible to high out-of-pocket costs.³

Many employees are not prepared for high, unexpected costs.

Sixty-six percent of employees have \$500 or less to cover the costs of an illness or emergency.⁴

Plan highlights.
